

**PROJECT DRAWING!
ALL INFORMATION WITHOUT
ENGAGEMENT**

- Up to 2% tolerances of the specified value are possible
- Drawing and axle loads are without options
- Errors and technical modification subject to change, reproduction as well as electronic duplication only with our written permission.
- Necessary options:
 - ASC00111
 - DDK00109
 - EDE00304
 - EDE00305
 - ESC00204
 - FAT00118
 - HHL00504
 - Chassis will be provided by costumer
 - Possible reduction of counterweight because of weight problems while platform is in production

weight calculation			
	front axle	rear axle	total
chassis weight	ca. 6400	ca. 3420	ca. 9820
total weight	ca. 12740	ca. 18500	ca. 31240
perm. weights	18000	19000	32000

[project number / serial number]
1164.0114

[type of platform]
P 640

[manufacturer of the truck]
MAN

[type of truck]
TGS 35.510 8x2-4 BL

[permissible total weight]
35000

[cab size]
L Cab

[emission standard]
Euro 6

[scale]
1:20
